

Go beyond visual
line of sight with
a connection that's
beyond doubt.

Because when you connect
your uncrewed aircraft through
Velaris, peace of mind is what
you get. It's our global C2
service for UAVs, based on our
ultra-reliable L-band network,
and allows uncrewed aviation
to fly in commercial airspace safely.
It's why UAV businesses choose us.

Perhaps it's one of the reasons we're
Aviation's Most Frequent Flyer™.

Scan to see how
Viasat can help your
UAV business take off.
